WINE TOURISM – GROUPS

CASA DE LA ERMITA

Casa de la Ermita was established in 1999 by a family with a long-standing connection with agriculture. Our winery and its vineyards are located in El Carche, a protected regional park and a stunningly beautiful mountain range with one of the highest peaks in the Region of Murcia.

The centuries-old olive tree that stands at the gates of Casa de la Ermita is the symbol of our winery and the source of inspiration that brings together our farming tradition and the state-of-the-art technology that allows us to make top quality Jumilla wines by taking great care throughout the production process.

VISIT CASA DE LA ERMITA

Casa de la Ermita is located in an exceptional and iconic setting by one of the highest mountains in the Region of Murcia, with an altitude of 1,371 meters. The winery sits at the heart of Sierra del Carche, a protected regional park whose varied wildlife and spectacular views over the valley and our vineyards enrich the visitors' experience.

Visits to Casa de la Ermita start with a small tour through the vineyards. Then, visitors are taken to our new Wine Interpretation Centre, which is located in our former wine-making facilities. Here, our guide explains in detail the various wine farming and production processes using photographs and infographics. Additionally, visitors have a first-hand look at the tools used at Casa de la Ermita in the early days.

The next stop of the visit is our barrel cellar, where the essence of wine captures all the senses. At this point, visitors have the chance to go on our aroma tour. At Casa de la Ermita, we not only want you to discover the world of wine, but also to experience it.

ACTIVITIES AND OPENING TIMES

We offer numerous additional activities to complete your wine experience and, in addition, we offer you our wine shop where you can buy the wines and other products of Casa de la Ermita, with the advantage of obtaining the best guarantee of conservation and advice.
