

Part of the **PROBLEM** or part of the **SOLUTION**

FIRE PREVENTION

- Remember that the risk of fire increases in Summer.
- Do not throw cigarette butts or light a fire outside the authorized places.
- Do not dispose of waste or rubbish outside the authorized points. **A fragment of glass can cause a fire.**
- Do not launch rockets, firecrackers, flares, "Chinese lanterns" or any other device which contains fire.
- Remember **that something which may be common in your country can cause a catastrophe here** (burn toilet paper, candles, braziers, bonfires, etc.)

HOW TO ACT IN CASE OF FIRE

1. Follow the instructions from the security agents and emergency personnel.
2. Close the doors and windows. Leave the exterior gate of the plot unlocked.
3. Gather the essential items (medicine, documentation, etc.).

IN THE CASE THAT YOU BECOME CONFINED

1. Communicate your position to the authorities **by calling 112.**
2. Remove the inflammable elements around the house.
3. Disconnect the gas and store the butane in the house or place it in the swimming pool.
4. Wet the vulnerable points such as doors and windows.
5. Close the doors and windows and seal them with wet cloths, lower the Venetian blinds and remove the curtains.
6. Always maintain communication (mobile telephone)

**In the case of emergency, the status of the situation will be punctually reported by means of the social networks of the Town Council of Xàbia (Facebook and Twitter) and officially communicated in the local press.*
